Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to a cabinet, classified in class 312, subclass 323.1.
 - II. Claims 21-23, drawn to a storage cabinet with batteries therein, classified in class 429, subclass 99.
 - III. Claims 24-26, drawn to a method of storing components, classified in class 429, subclass 100.
2. The inventions are distinct, each from the other because of the following reasons: Group I does not require the batteries placed within the cabinet as do both Groups II and III and so it is distinct therefrom. Group II sets forth a canted ceiling which is not part of the Group III method and so it is different therefrom.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Due to time restraints, this restriction requirement is being handled via written correspondence.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 703-308-1795. The examiner can normally be reached on Monday-Thursday from 6:15-3:45.
